Your access to Cochrane Interactive Learning has been enabled by University of Edinburgh (no payment by you is required). If you have not already done so, you will however need to create a Cochrane account and to register for use of the modules. Doing so is simple and will allow you to track your progress, test yourself with Assessments at the end of each module, and download certificates of completion if you wish.

Click "Create a Cochrane account". You will be asked to fill in a basic form. Once that form is submitted, you will receive an email with a link that lets you choose a password and activate your Cochrane account. You can then log in and register for Cochrane Interactive Learning by accepting the Terms and Conditions.
