## Connecting to Eduroam (Wi-Fi)

This document will help you connect your Windows 8 Device the Eduroam Wireless Service.

1. Swipe in from the right-edge of the screen and tap **Settings**.  
(If you're using a mouse, point to the top-right corner of screen, move the mouse pointer down, then click **Settings**.)

2. Tap or click the **wireless network**  icon.

3. A list of available wireless networks appears. Tap or click a wireless network to connect to it (Eduroam).

4. Tap or click **Connect**. And check the “**connect automatically**”

5. When prompted for enter username as [UUN@ed.ac.uk](mailto:UUN@ed.ac.uk) and wireless password then click “**OK**”.

6. On the Continue connecting menu click **“Connect”**.

7. Eduroam is now connected.
